

# HEITHEM CHORFI

Full-Stack Web Engineer

Béjaïa, Algeria | +213 794 20 66 55 | heithem.dev@gmail.com | linkedin.com/in/heithemdev | heithemdev.com

## SUMMARY

Full-Stack Web Engineer building e-commerce platforms, marketplaces, dashboards, and business web apps with Next.js, TypeScript, Prisma, and PostgreSQL. Delivered paid products for local businesses and startups, with focus on clean UX, secure backend logic, and admin workflows.

## TECHNICAL SKILLS

**Frontend:** Next.js, React, TypeScript, Tailwind CSS, HTML, CSS

**Backend:** Node.js, API design, authentication flows, Role-Based Access Control (RBAC), server-side validation

**Database:** PostgreSQL, Prisma, data modeling

**Tools:** Git, GitHub, Vercel, Neon, Cloudinary, Figma

**Programming:** Java, C, Object-Oriented Programming (OOP)

## EXPERIENCE

### Freelance Full-Stack Web Engineer | Algeria / Remote | 2024 - Present

- Built paid web products across grocery delivery, e-commerce, student marketplace, and B2B commerce workflows.
- Designed admin systems for products, categories, images, stock visibility, customer orders, moderation, and dashboard control.
- Modeled backend data with Prisma and PostgreSQL for carts, orders, products, users, roles, and secure app flows.
- Delivered mobile-first customer interfaces and clear admin screens with Next.js, React, TypeScript, and Tailwind CSS.

### AI Trainer, C/C++/Java | Alignerr / Labelbox

- Reviewed AI code outputs for correctness, reasoning quality, and language-specific issues; wrote structured evaluation reports.

## SELECTED CLIENT WORK

### Supermarket Laibi 2 | Grocery Ordering MVP | 2026

- Built a French-only supermarket ordering web app for Bouira with product browsing, cart, order form, fixed delivery fee logic, and admin control.
- Delivered product, category, image, stock, and order management for the store owner. Reported result: 130% average sales lift.

### Rimoochat | E-commerce Store | rimoochat.com | 2025

- Built a mobile-first storefront for handmade clothing, shaping product presentation, trust, and purchase flow. Reported result: the store now drives 90%+ of current business income.

### Unimarket | Student Marketplace | 2025

- Built marketplace logic for USTHB students with authentication, email verification, buyer and seller flows, listings, moderation, and local payment handling.

### TruckProSource | B2B Marketplace for Heavy Truck Parts

- Built a multi-vendor marketplace MVP with dashboards, checkout, reviews, admin moderation, and scalable backend logic; platform supported supplier-facing discussions around a 50K+ contract.
